Italians Have Not Yet Been Attacked—British Forced From Es-Salt, But Hold Elsewhere

NEW HUN DRIVE BELIEVED NEAR

Observers Say It Will Come At Arras and Lens—Situation in Austria Still Precarious

The Canadians have appeared in the Arras sector farther south than they have been since the battle in this region began on March 21. This part of the line is most important as it defends Arras to the southwest and includes localities such as Neuville-Vesme, Fercatel and Bois-lez-St. Marc where there have been British struggles since the Germans launched their great offensive.

American troops on the French front not far from Montdidier have been under a storm of shells for the past couple of days, projectiles containing high explosives being mingled with those charged with poison gas being fired into the line held by General Pershing's men.

Along the rest of the front in France there have been no engagements of unusual character, nor have the Italian fronts been attacked as yet by the Austrians who have gathered there. The British who have been holding the town of Es-Salt, east of the Jordan and northeast of Jericho, for about a week have been compelled again to abandon the place before superior forces of Turkish and German troops. The British, however, are still maintaining their control of the crossings of the Germans farther south.

Expect Drive to Reopen Soon

From the official reports and special dispatches filed by the correspondents at the front there comes intimation that heavy fighting may be resumed at any time. The fact that heavy rains are falling may have a great deal to do with the German delay in the drive but the fact that the Allies are holding high ground from which they can observe the German positions which are generally in the lowlands and have kept up a heavy artillery fire in sectors where the Germans have been gathering or have been at work in bringing up guns for the battle which is virtually certain to come.

There is a feeling along the French front that the Germans may attack in the Tross and Amiens sectors at the same time. These blows, while carried on independently, would really be phases of a new attempt to cut through the lines in the Somme sector, eliminate the Arras sector and carry the high ground southwest of Tross.

Believes Arras Will Be Attacked.

Observers have pointed out that an attack on the Arras sector, either on the apex between Arras and Lens, or on the sides of the Allied lines, as they stretch back from those cities must come before the Germans can hope to carry their advance in either Flanders or Picardy much farther.

It is reported that heavy forces are being gathered before Arras for the expected attack.

Little relative to the internal situation in Austria has come over the cables, but from Serbian sources it is learned that on at least two occasions there have been clashes between the Slovenian population of that country and the Germans.

The methods by which the German military authorities have dealt with the Ukrainians have been denounced in both Berlin and Vienna by socialist leaders.

COAST OIL MEN FAVOR NATIONAL OPERATION

Believe This Would Pave Way
For Relief of Oil Famine
on Pacific Coast

Washington, D. C., May 6.—Representatives of the oil interests on the Pacific coast in conference today with Secretary Daniels and Mark L. Requa, oil controller for the fuel administration, approved the bill now before congress, under which the navy department by a presidential proclamation will take over and operate all oil and gas wells in the naval oil reserves in California. This action is expected to pave the way for passage of the measure and consequent relief from oil famine in the Pacific coast district. Secretary Daniels had previously agreed that in operating the reserves the navy department would allot a share of the output to private industries in that section, most of which use oil as fuel.

Seriousness of the oil situation on the west coast was first brought to the attention of government officials two weeks ago by Pacific coast publishers, headed by F. W. Kellogg of San Francisco, who said the paper industry in their section was threatened with suspension because of the threatened oil shortage.

The representatives of the oil interests who were taken to see Mr. Daniels today by Mr. Kellogg, told the Secretary they were perfectly willing to place their interests in the naval reserve land in the hands of the President. The bill before congress gives the President the power to offer a price, even to claimants who have no legal possession, to wells in the district.

AIR MAIL TO COST 24 CENTS AN OUNCE

New System of Transporting Post
Office Packages Goes Into
Effect May 15

Washington, D. C., May 6.—A bill authorizing the post office department to charge not in excess of 24 cents an ounce or fraction thereof for the transportation of mail by airplane was adopted today by the senate. The measure now goes to the house.

The postoffice department announced today that the airplane mail service between Washington, Philadelphia and New York will be started May 15 as planned. Military airplanes for the service are being assembled at Mineola, N. Y. As experiments will be made in dropping mail sacks while the airplanes are in motion, mail for the present will be confined to letters, but for the initial trip, May 15, sealed parcels will be accepted.

SIX MARINES ON CASUALTY LIST

One Killed in Action, Says Navy. While Four Died of Wounds Suffered in Battle.

Washington, D. C., May 6.—Six Marine corps casualties in the American Expeditionary forces were announced today by the navy department. Of this number, one was killed in action, and four died of wounds.

The list follows:

Killed in action, Private Willard Franklin Clark, Buffalo; died of wounds, Corporal John Martin Gardner, Dunn, N. C.; Privates Gregory Alan and David Dorian, Chicago, Ill.; Ernest Peter, John Peterson, Chicago, Ill.; Leon John Roberts, Buffalo.

ADOPT NATURALIZATION BILL

Washington, D. C., May 6.—The majority report on the bill amending the naturalization laws to expedite naturalization of 123,000 aliens in the national army so as to protect them in the event of capture was adopted by the senate today. The legislation now goes to the president.

British Throw Off Raids in Sector Around Locre

London, England, May 6.—German raids today against the French positions in the region of Locre, in Flanders, were repulsed. In the operations between the Somme and the Ancre last night, says the official statement from Field Marshal Haig tonight the British captured more than 200 prisoners.

CANADIANS NOW HOLD NEW 3-MILE SECTOR

Soldiers of Our Neighbor to the North Have Been Constantly Harassing Enemy

(By the Canadian Press, Ltd.) Canadian Army Headquarters in France.—The Canadian army has taken over trenches in the vicinity of Neuville-Vesme Mercate, and Bois-leux-St. Marc, in addition to its front from hill 70 to Gavrilles.

The new section of battle front taken over by the Canadian troops lies to the southwest of Arras and is about three miles in length.

In their new quarters, as well as north of the Scarpe, they have been keeping the enemy constantly on the alert. Prominent in the operations in this area was the raid last Friday morning when the Saskatchewan troops under the cover of artillery and machine gun barrages penetrated the enemy outpost line on a 600 yard front to a depth of 400 yards. The raid which was carried out on the Arras road north of the Cojeul river, was conducted at only slight cost, but both sides of the road were marked with enemy dead. His casualties could not be less than 100, and we captured seven prisoners and four machine guns. On the extreme right of the Canadian attack the enemy offered virtually light resistance, but heavy fighting took place on the left.

Again on the morning of April 29, a very successful raid was carried out by Ontario troops against enemy positions in the vicinity of Neuville-Vesme. They captured ten prisoners and four machine guns. The Canadians remained in the enemy line, twenty minutes inflicting numerous casualties on the foe, who in places offered stubborn resistance. Despite the hand to hand fighting the Canadians returned to their lines with only nine killed or missing.

(By the Associated Press.) With the American Army in France, May 6.—Brig. Gen. Benjamin Alvord, adjutant general of the American expeditionary forces, and Brig. Gen. A. E. Bradley, chief surgeon, have been relieved of their positions on account of ill health and are returning to America.

Lieut. Col. Robert C. Davis will act as adjutant general and Col. Merritt W. Ireland as chief surgeon.

DOUBLE SHOOTING AT NATIONAL ARMY CAMP

Private and Woman Found Dead Under Mysterious Circumstances At Camp Upton, L. I.

Camp Upton, May 6.—The identity of the man and woman who were found shot to death at Camp Upton yesterday was disclosed today, but the reason for the double killing and the name of the person or persons who did the shooting still remains a mystery. The dead man was Private Michael Maloney, of the National Army, and the woman Mrs. Rose Harry, a widow. Both resided in Brooklyn.

Coroner Edward F. Moore said today that the bullet which killed the two were similar to those used in the regulation army rifle.

Maj. H. H. Walker, provost marshal at the camp, confined his statements concerning the tragedy to a bare recital of the fact of the shooting, but added that sentries whom he questioned asserted that they saw a man run after the shots were fired.

U. S. RAIDING PARTIES ACTIVE AT LUNEVILLE

Enemy Heavily Bombards American Lines During Night, But Shows Nervousness

(By the Associated Press.) With the American Army in France, May 6.—Low visibility prevailed over the Luneville and Toul sectors, as well as south of Verdun, today, restricting operations by both sides. There was virtually no activity during the daylight hours, but during the night the enemy heavily bombarded the lines in the direction of Seicheprey and those northwest of Toul, while south of Verdun the Germans displayed great nervousness, throwing up many flares for help. It has been established that the troops in that section came recently from Flanders.

Along the line near Luneville the American patrols have been active and have penetrated the enemy's lines once more. They found that the enemy had not re-occupied raided portions of their positions and that the town of Anservillers, with the exception of one stone house, had been completely demolished by the American artillery fire. Many German dugouts under the buildings had been made useless.

Lieutenant John Rosenwald, of the medical corps, who was formerly one of the best known of the western football players, has been killed by shell fire in the Luneville sector. Lieutenant Rosenwald, whose home was in Minneapolis, was captain of the University of Minnesota eleven a few years ago and made a brilliant record.

TWO FLYING CADETS KILLED.

Camp Borden, Ontario, Canada, May 6.—In an airplane accident here this afternoon, Second Lieut. G. A. Ruffridge of Montclair, N. J., and Cadet H. B. O'Leary of Toronto were killed.

Lieut. Ruffridge was a son of G. T. Ruffridge of Montclair, N. J.

RURAL TRAINING BILL SIGNED.

Albany, May 6.—Governor Whitman today signed the bill introduced by the assembly committee on education for the purpose of relieving certain rural school districts of the burden of maintaining physical training instructors. Under the provisions of the law districts maintaining less than ten teachers may have physical training taught by one of these teachers instead of requiring the district to hire one for itself.

DENOUNCE ANDERSON.

Albany, May 6.—A conference of allied temperance forces of the state, representing fourteen organizations, called here today to decide whether to ask Governor Whitman to call an extra session of the legislature to act on the ratification of the federal prohibition amendment suddenly developed into a bitter denunciation of State Superintendent Anderson of the Anti-Saloon league and calling for his removal.

HUNS CONTINUE GASSING YANKS

Send Over 15,000 Shells of Mustard Gas and Artillery Fire Upon Our Trenches

GUNS DOWN GOTHA

Big Attack Upon Americans Expected, But Army is Ready to Give Fritz His Medicine

(By the Associated Press.) With the American Forces on the French front, May 6.—The Germans launched a heavy gas attack against the American troops on the Picardy front during the night. Early in the evening they sent over 15,000 shells composed chiefly of mustard gas within a brief period. These shells were followed by an intense artillery fire and at midnight several hundred gas shells were dropped in the American lines.

Enemy airplanes appeared over the American lines about the same time. Anti-aircraft guns brought down one German machine and damaged another.

The extreme activity of the artillery and aviators, the rifle fire, and night flares, and the reported movement behind the enemy lines in this sector may forecast a new attack. But General Pershing's men are ready for any emergency. They are countering the enemy preparations blow for blow, keeping up a harassing artillery, rifle and machine gun fire and are actively patrolling.

The spirit of the Americans is excellent. They are eager to fight and a typical expression is: "Let Fritz start something. He'll get all that's coming to him."

A young French captain training the men now on the Picardy lines told the Associated Press today he never had seen finer material.

"All are of one mind," he said, "to fight back and hard, and to finish the war quickly."

FORM COMMERCIAL CREDIT BANK

Will Deal Exclusively in Acceptance, and Will Be Called "Discount Bank of New York"

New York, May 6.—Prominent local financial interests have organized a bank to specialize in acceptance, or financial and commercial credit, to be known as the Discount Bank of New York, according to an announcement made today. Included among the promoters of the new institution are J. P. Morgan & Co., the National Bank of Commerce, the Mechanics and Metals National bank, and the Guarantee Trust Co.

In general the new bank will be patterned after British discount companies, differing only in so far as may be necessary by reason of the broader character of the American money market. The board of directors and chief officials, including experts in foreign exchange, will soon be selected. The amount of the bank's capital is yet to be determined.

CZERNIN DELIVERS UNLIMITED IN PERSON

Paid Visit to Rumanian Capital in February and Has Meeting With King Ferdinand

London, England, May 6.—Count Czernin, the Austro-Hungarian foreign minister, paid a visit to Jassy in the latter part of February and delivered in person a verbal ultimatum of the most drastic sort from the Central Powers to King Ferdinand of Rumania. It has become known with the arrival here of the American Red Cross mission to Rumania.

Count Czernin's visit was known of only in the highest official circles and the fact that it was paid is revealed now for the first time by a correspondent of the Associated Press who accompanied the mission. The reason for the visit was that the Germans and Austrians had determined to bring to a speedy conclusion the negotiations with Rumania and had decided that an ultimatum delivered in person by the head of the Austro-Hungarian foreign office would be more effective than reams of documents.

So Count Czernin was sent on the errand. He arrived in Jassy about February 25, and went straight to the King. His manner was stern, unbending, ruthless. He told the King brusquely that Rumania must conclude peace on Germany's terms and do it immediately. There must be no further delays, and unless Rumania consented to this program the Central Powers proposed issuing a ukase deposing the Rumanian royal house and dividing the entire country between Austria and Bulgaria.

The Rumanian King saw no way out, and a week later the formal peace negotiations were begun.

Queen Mary had fought bitterly against any and all peace talk from the beginning and she had a considerable body of the Rumanian public. The King and cabinet, however, saw no possibility of escape. Three days before the negotiations were opened there was a crown council at which the subject of peace was fully discussed.

King Ferdinand spoke of the inevitability of peace and the hopelessness of Rumania's position. Most of the cabinet ministers agreed with him, some reluctantly, others almost enthusiastically. The Crown Prince listened to them impatiently. Finally he arose and addressing the King said:

"I realize, sir, that you speak for the government, the army and a considerable body of our citizens, but I speak for the Queen and every loyal woman in Rumania, when I say that to accept such a peace would be humiliating and dishonorable and would put a shadow on the hitherto unstained page of our history."

Five Storage Houses, Grain Elevator, Four Storey Building and Others Burned

St. Louis, Mo., May 6.—Fire, which started at about 5 o'clock this afternoon in a warehouse of the Independent Packing company in North St. Louis, destroyed five storage houses of the packing company, the Rogers grain elevator, a four-story building occupied by the Union Packing company, and a number of small storage sheds.

Officials of the packing company and elevator company said the loss would not run more than \$500,000. The police report on the fire, however, gave the loss as \$3,000,000.

CONSIDER SEDITION BILL

Washington, D. C., May 6.—The conference report on the sedition bill, which was adopted last Saturday by the senate, came before the house today with prospects of a long debate. Objection to the measure is based largely on the section conferring broad powers on the postmaster general to exclude from the mails publications containing seditious utterances.

ORDERS INQUIRY OF AIR PROGRAM

President Heeds Talk of Craft and Mismangement and Sets Department Justice to Work

COFFIN URGED STEP

Major General Squier, Chief Signal Officer, Demands Court of Military Inquiry

Washington, D. C., May 6.—Talk of craft and mismangement in the airplane construction program heard for months in senate debate and capital lobby gossip culminated today in a presidential order for an investigation by the department of justice. Almost simultaneously it became known that Maj. Gen. Squier, chief signal officer, and until recently in direct charge of army air construction had demanded a military court of inquiry.

The white house in announcing President Wilson's action made public a telegram received Saturday from Howard Coffin, former chairman of the aircraft board, urging an official inquiry "that reputations of innocent men may not be ruined" and a series of letters and telegrams exchanged between the president and Guston Borglum, the sculptor, to whom is attributed responsibility for statements that corruption in the expenditure of funds and pro-German intrigue has hindered airplane production.

There also was a letter written by the president today to Senator Cummins of Colorado, a member of the senate military committee, assuring him that every facility of the department of justice would be utilized if Mr. Borglum's allegations are found worthy of serious consideration. Senator Cummins laid before the president last week assertions made to members of the committee by the sculptor.

The exact status of Mr. Borglum as an investigator which until now has been more or less of a mystery to the public is cleared up by the correspondence. It developed that after the sculptor had written to Secretary Tumulty last November in regard to the defects of the aircraft organization and the desirability of having certain experts called in the president asked him to submit his ideas.

Borglum did this and on February 1, the president sent a preliminary report from him to Secretary Baker with this note:

"Here is Mr. Borglum's preliminary report. Is there not some one entirely disconnected from aeronautics and from those who are prominent in carrying out the aircraft program whom you can ask to go over this thing with an unbiased mind and give us his impression of it. There may be something worthy of our consideration and suggestions worthy to be accepted."

On March 23, after an exchange of telegrams with Borglum, the President wrote that he had placed the material which the letter contained at the disposal of gentlemen with whom he had committed the task of making a systematic inquiry into the whole aviation program. These gentlemen were the special committee headed by H. Snowden Marshall of New York, whose preliminary report preceded the recent organization of the army aviation service and the appointment of John Ryan as director general. Apparently the sculptor resented not being allowed to carry out the inquiry himself. In response to a complaint that he had not been supplied with suitable expert assistance, the President on April 15 informed him that he feared he had been under a serious misapprehension as to his status.

"I never at any time constituted you as an official investigator," wrote the President. "I merely gave you the right to look into the matter on your own motion and I am sure the letter which the secretary of war provided you with he gave you with the same purpose and idea."

The President closed by expressing the hope that Mr. Borglum would consider it his duty to turn over to the official investigators any evidence in his possession. It has been reported since that the sculptor refused to deal with the Marshall committee.

Mr. Borglum had a conference with the senate committee. He reiterated his assertions that criminal liability could be established.

Exactly what the Borglum charges are never has been revealed publicly, though they have been broadly hinted at in senate debate and freely discussed in the cloak rooms. Whether the senate committee will consider them has not been demonstrated, but a majority oppose action and acting Chairman Hitchcock has stated that an inquiry involving possible criminal proceedings should be conducted by the department of justice. A meeting is to be held in a few days to settle the question.

General Squier's request for military inquiry to clear up the matter so far as he and his subordinates are concerned is before Secretary Baker and there is no intimation what action the secretary will take. Mr. Baker said today he had not concluded his study of the situation or arrived at any conclusion as to whether there was ground for the prosecution of any official.

The New York Markets.

New York, May 6.—The gratifying success of the Liberty Loan, which automatically released liquid capital from many of its recent restraints, and the more hopeful war bulletins gave a decided impetus to today's stock market, several leaders scoring new high records for the year.

Foremost among these was United States Steel, which made an extreme advance of 2½ points.

Affiliated industrials and equipments, especially Bethlehem, crucible and Lackawanna steel, Republic iron and Great Northern ore retained the better part of their 1 to 2½ point gains with General Electric, New York air brakes and American car.

Shippings and tobaccos and sugar were mainly representative of a revival of professional activities.

Rail's lagged conspicuously in the first half of the session, but became active and stronger later under guidance of transcontinentals, grangers, Readings and secondary coalers. In general, best quotations were registered at the close.

Bonds, including the Liberty group were firm on a pronounced diminution of offerings. United States bonds, old issues, were unchanged on call.

ALARM BELL ON SPARE TIRE

Wrong Combination of Buttons Sounds Alarm—Steel Box Contains Peculiar Mechanism.

A lock for the spare automobile tire invented by Theodore P. Lasker, 216 St. Clair avenue, Detroit, rings an alarm bell when removed without the lock.

Alarm Bell Warns of Thief.

In place of a lid and is held in place by four bolts. A round steel box in the center contains the mechanism and has on its face eight buttons. When the right combination of buttons has been pressed the bolts can be slid back and the tire removed. A wrong combination of buttons starts a bell inside the lock ringing.

Fancy Coaters for House.

Very becoming over a black or some dark-hued frock is a black chiffon cloth or marquisette coatie punching in sacklike manner just above a high waistline and edged with the whitest and finest swansdown.

Silk Jersey Jumpers.

Decidedly charming are the silk jersey jumpers slipped on over perfectly simple plain skirts, and emphasis of outline can be imparted through the simple means of a sash.

More Convincing.

RECORD "HONEST MAN"

Citizen of Wichita, Kan., Is Entitled to That Distinction.

Robert B. Campbell, former city commissioner of Wichita, Kan., in the opinion of Wichita police court officials, holds the record as the "honest man." Campbell came down town in his automobile, and parked it wrong. He knew it, and thought that when he returned he would find a notice to appear at the police station.

Just as he was about to enter the car, he saw a piece of paper blown out of the car window. Not knowing if it was the notice, he appeared at the police station, and told Judge Carl H. Davis his story.

"You wouldn't feel just right if I didn't give you a fine," said the judge, with a smile. "I'll make it one dollar."

VALUABLE ARTICLE OF FOOD

Banana Really Is Not Appreciated

Anything Like as Much as It Ought to Be.

The banana is one of the most useful of all foods. When the population of the earth becomes overcrowded, we shall have to eat more bananas and less bread. An acre in wheat will yield 200 pounds of food. An acre in bananas will yield 120,000 pounds.

The banana resembles in composition the sweet potato. Both contain 15 per cent of protein and 20 per cent carbohydrates. The banana contains more starch than fruits of the temperate climate. As it ripens the starch gradually turns to sugar.

The late Edgar Wallace Conable said that the banana is the only food which may safely be eaten when it has been picked green. This he explained, is because the green bananas draw nourishment out of the great central stem, which gradually shrinks and withers. A banana should never be eaten until the skin is beginning to turn black. Some claim that they should be entirely black. However, it is not necessary to go so far as that. As they turn black the starch turns to sugar. Scrape the white material from beneath the skin before you eat the fruit.

SCHUYLER LAKE BULLETIN.

"The Farmerette." Staged by High School Girls, Draws Large Crowd.

Schuyler Lake, May 6.—"The Farmerette," one of the most successful plays ever seen in Schuyler Lake, was staged by the High school girls for the benefit of the local Red Cross on Thursday evening. The hall was filled to overflowing by an appreciative audience. It would be difficult to say who did the best acting, for they all did fine work. Much credit is due Miss Marjorie Mercer, a graduate of the Morrisville State school, who drilled the cast. The Junior Red Cross filled in between the acts and they also deserve much praise. The proceeds were \$45.50. Miss Sloan of the High school faculty was the pianist for the evening. Mrs. George Cushman had charge of the Juniors. The girls wish to thank Mr. Bullock, who so generously donated the use of the hall for the evening, also all others who donated or loaned the paraphernalia for the stage.

DELAWARE COUNTY NEWS

POLICEMAN SHOTS SOLDIER

Sidney Selected Man Injured by Bullets Shot by German Patrolman.

Sidney, May 6.—Elvin Race returned home yesterday from Toledo, Ohio, where he was called by news of an accident to his son, Ernest Race, a member of Company F, 50th Ammunition Train, and who has been engaged in driving government trucks from Detroit to Baltimore. Race was one of the first selected men to leave for Camp Dix on September 19, with the contingent from Norwich. It is ascertained that he was injured by being shot by a policeman of Toledo on Saturday, April 27, receiving two

bullet wounds, one in an arm and the other in his hip, and has since been confined to the hospital, but is now improving rapidly, and unless complications set in, will soon be about again. It is stated that the shooting was unprovoked. He, with companions, was loitering on a street corner when told to move by the officer, who is a German. He paid no attention at the moment, and later when he started away, was told to halt. He also paid no attention to this command, and the officer fired the shots. The policeman is now in confinement awaiting a trial for the assault, which he himself claims he committed unprovoked.

Liberty Loan Results.

With the majority of towns in this section, Sidney went over the top in the Third Liberty Loan, a total of \$189,800 being subscribed. The quota for the town was \$178,900, the largest by several thousands of dollars of any town in the county. At the People's National bank, a total of \$50,000 was subscribed by about 350 subscribers. At the Sidney National bank 1,014 subscribers took bonds to the amount of \$130,800. The St. Paul's troop of Boy Scouts sold bonds to the amount of \$6,450 to 72 persons. A the Kayser factory 186 employees took bonds to the amount of \$19,300. The result is very satisfactory to

OUR DUTY TO THE RED CROSS.

A year ago the liberal and patri-
otic citizens of the United States
were asked to raise a fund of \$100,
000.00 for the purpose of carrying on
the work of the Red Cross in the
United States and with our armies,
and those of our Allies abroad. This
appeal was generously met and the
full amount was with little difficulty
subscribed. Men, women and child-
ren in all parts of the country joined
heartily in the work. Individuals
united with churches, societies, cor-
porations and financial institutions
and all forms of industry, to further
this great cause, and the result was
one to which the nation as a whole
could point with pride. Never had
the appeals of any humanitarian work
been so generously responded to.

The money raised at that time is
now nearly exhausted. The cause for
which it was raised, must, if this
noble work is to be carried on, be
further financed. For this reason the
Red Cross again makes appeal to our
patriotic citizens, and asks a second
war fund of \$100,000.00. The Presi-
dent of the United States has set aside
the period of May 20-27 for the pur-
pose of raising this further sum to
continue the work of the Red Cross
at home and abroad.

In the words of the Governor of the
state of New York: "The Red Cross
is no longer an experiment. The
President of the United States is its
president. It is offered by some of
our most experienced and most trust-
ed citizens. It is chartered by and its
accounts are audited by the govern-
ment. The state of New York is cal-
led upon to raise its quota of the
amount desired. I know that this
appeal will not be made in vain. The
cause is our cause. I bespeak for it
your earnest and immediate co-
operation."

These are words which sink deep
into every heart. The Red Cross is
the noblest of humanitarian organiza-
tions. Its appeal is to every patri-
otic, noble and generous soul in the
country. It calls to those who have
given their sons to the cause of uni-
versal freedom, but still more should
it appeal to those who, only in such
forms of giving as this can in any
sense sacrifice.

To raise the sum asked is a duty
which we owe to the Red Cross, but
in a still larger sense we owe it to
ourselves. Let all be ready to for-
ward the Red Cross campaign.

THIS IS CLEAN-UP WEEK.

In a letter to mayors, village presi-
dents and boards of health, Dr. Her-
mann M. Biggs, Commissioner of
Health, designates the week begin-
ning May 6, as Clean-up week.

Calling attention to the fact that
Clean-up week is now a national cus-
tom and suggesting the necessity from
a sanitary standpoint of properly dis-
posing of rubbish, manure, garbage
and other filth that has accumulated
during the winter, Dr. Biggs observed
that the outward appearance of a
community is usually a reliable index
of the character of its citizens, and
emphasizes the fact that where in-
sanitary conditions are allowed to
exist, there is sure to be found an
unprogressive people presided over by
incompetent or ignorant officials.

If for no other reason than from
a patriotic standpoint, Dr. Biggs
urges that a special effort be made
this year in order that the men have
left to defend their country may find
home conditions better, cleaner and
healthier on their return.

Attached to the letter are a num-
ber of helpful suggestions for organ-
izing co-operative community clean-
up work.

Men and Boys for Otsego Farms.

Farm labor specialist P. R. Ben-
nett, whose office is in the Chamber
of Commerce rooms, has just return-
ed from a trip to Albany and other
places and succeeded in bringing back
several farm hands who were dis-
tributed among farmers seeking farm la-
bor. There are many truck farmers
living in New York city who might be
secured for tilling the soil purposes
but, unfortunately, have no experi-
ence with games. There are some other
men available, Mr. Bennett says,
but one has to be on the job early to
find them. So far Mr. Bennett has
been able to place a number of men
and boys on Otsego farms.

Delegates to R. C. Conference.

The Red Cross announced last
night that five delegates will go to
New York to attend the tri-state con-
ference of Red Cross workers to be
held at the Waldorf Astoria hotel to-
morrow as representatives of the local
chapter. They are Mrs. George
Baird, Mr. and Mrs. Stanley Morris,
Miss Marian Tager and Miss Ethel
Scotchard.

Approximately 2,000 delegates from
the states of New York, New Jersey
and Connecticut—the Atlantic divi-
sion—will be present.

COMMENTS OF THE PRESS

A Resemblance to Jabez.

"Jabez Pickens is going" about his
farm all bent over like he was stalk-
ing Indians," reports Uncle Abime-
lech Bogardus, of Freshburg, N. J.;
"he's got the misery in his back."
"I was just lifting a bowlder onto
the stone boat," he sez to me, "when
the spell kitched me. I just stood
and bowered with the rock in my
hands—couldn't neither pick it up
nor let it drop."
"Wonder if the Kaiser d'n't feel
like Jabez did, about now."—[New
York Tribune.]

Cutting Auto Production.

Automobile production this year is
to be cut in half, according to the re-
ports from Washington, and this will
allow a production of about 900,000
cars. With the old machines in com-
mission the public can get along very
well, and with war business the man-
ufacturers will not suffer greatly. In
any event, they will be permitted to
retain something more than a skele-
ton of their organization.

The business has been reduced fol-
lowing the policy of the government
to reduce gradually those industries
which are less essential. There is not
sufficient steel to satisfy shipbuilding
and other war demands, and permit
at the same time capacity production
of automobiles. There is not enough
labor to meet the demands of both,
or enough credit. Business in the
country cannot be carried on in the
same old way when there is a huge
task to be attended to.—[Utica Ob-
server.]

Save the Country First!

There's going to be mighty little
progress made in saving this country,
if every little two-by-four politician
has to stop to save his party first.—
[Binghamton Press.]

Locating the Earthquake.

When you read about an earth-
quake shock in California, and after
you get to California and ask about
it, you are told that it occurred in
Arizona.—[Dallas News.]

Cheering-Up the Kaiser.

Probably the Kaiser gets down-
hearted now and then when he thinks
of the immense numbers slaughtered;
but then he thinks of Rheims cathed-
ral and cheers up at once.—[Cleve-
land Plain Dealer.]

Some Compensation.

New York has only one motor car
for every 35 inhabitants, while Kan-
sas has one for every ten. All of
which goes to prove that people have
got to have some compensation for
living in Kansas.—[Rochester Post-
Express.]

Not Stockholders' Agents.

The Washington bill to let National
banks contribute to the Red Cross is
properly permitted to die. Directors
are free to give, stockholders are free
to give; both ought to do so, but the
directors are not the agents of stock-
holders in using the latter's funds for
philanthropy.—[Brooklyn Eagle.]

What a Woman Learned.

A Washington woman who opened
her house to boarders when the govern-
ment asked for places for war
workers, objected strenuously to the
proposed plan to have the workers go
to their places of employment at vari-
ous hours, so that the street car com-
pany would be able to handle the
crowds. She said if she had to serve
two or three sets of breakfast she
would quit taking boarders. She
changed her mind when she was told
the United States had a hard task be-
fore it and that unless Americans ac-
cepted inconveniences cheerfully they
were not doing their part. She said
she never thought about it in that
way. She was thinking only of her-
self. Now she sees how she can help
and is willing to provide breakfasts
at 6 or 7 o'clock, if necessary.

FORMER D. & H. PRESIDENT.

Robert M. Olyphant Dies in New York
Was 93 Years Old.

Robert Morrison Olyphant, hono-
rary chairman of the executive com-
mittee of the Delaware and Hudson
railroad, of which he had been presi-
dent for 29 years before his retire-
ment from active life, died Saturday
in New York in his ninety-fourth
year. Mr. Olyphant was the oldest
alumnus of Columbia university and
the oldest member of the St. Andrew
society of the state of New York, an
organization he joined in November,
1846.

He was born September 9, 1824,
the son of David W. C. Olyphant and
Anne Archer Olyphant. His father
was a New York merchant in the East
India trade and was the son of Dr.
David Olyphant, who came to
Charleston, S. C., soon after the battle
of Culloden, and later in 1775 was ap-
pointed director general of hospitals.

His father was the senior member
of the firm of Talbot, Olyphant and
company, and Mr. Olyphant joined
the company. In 1844 he made a
trip to China, and returning, married
Miss Sophia Vernon of Newport, R. I.,
and upon her death he was married
to her younger sister, Anne Vernon.

Of 10 children, Mr. Olyphant is sur-
vived by his son, Robert Olyphant,
of New York, and a daughter, Mrs.
George Casper Kellogg, of Pittsburgh.
Mr. Olyphant re-organized his
father's company in 1858 and exam-
ined the Great O. He retired from
the mercantile trade in 1873. Later
he became assistant to the president
of the Delaware and Hudson railroad.

He was elected to a vice presidency of
the road, and later became presi-
dent. Upon his retirement in 1900
he was elected honorary chairman of
the executive committee.
Mr. Olyphant was a Fellow of the
National Academy of Design and
helped raise the funds for the erec-
tion of the first academy building.
He was deeply interested in art and
for many years was a patron of the
Canton Christian church in China.

OPERETTA GIVEN AGAIN

High School Students Once More Pre-
sent "The Contest of the Nations,"
and Do It to Perfection—A Little
Reading Between the Lines.

In an "enore" performance of
"The Contest of the Nations," given
by the students of the High school in
the school auditorium last night for
the benefit of the Junior Red Cross
was found grace equally as dainty
singing of the same delightful strain,
and acting as strong as that of last
Friday evening, when the first stag-
ing was given.

Out of the sequels of the gala
company of 125 with their handsome
costumes and charming presentation,
there came food for the philosopher
—food for the student of national and
international relations. Between the
lines of the operetta one could easily
read that despite an every present
rivalry existing between the nations,
through a Spirit of Fair Play, rather
than through hatred and lust, a
plan may be brought to the nearer
front. This was seen clearly as the contest
of dance and song moved along easily
while friction was noticed between
several of the contestants as to whom
should dance first and the better
of a cool consideration of the situa-
tion, the nations, it was shown,
may live in harmony.

All this was interwoven while the
countries, Scotland, Holland, Great
Britain, Italy, Japan, Spain, France,
Norway, Sweden, Denmark, Switzer-
land, China, and our own United
States, did their best to show forth
their national traits through the
rhythm of ecstatic motion and pleas-
ing sound. And the United States—
typically illustrated by Columbia and
epochally described in the bringing on
of an American Indian, a Puritan,
Civil war soldier, Quakeress, an Ar-
kansas traveller, a country fiddler,
farmer boys and girls, and then a
"good old square set"—won the prize.

Col. Scott Decoration Day Orator.

The committee having in charge
the securing of a speaker for Decoration
day announces that Col. Walter
Scott has consented to deliver the
address, which will be given in the
Municipal hall, immediately after the
exercises in the cemetery. The selec-
tion is a most fortunate one, on which
the committee is to be congratulated.

Special Board of Education Meeting.

A special meeting of the Board of
Education will be held Tuesday, May
14, for the purpose of re-organiza-
tion. This has generally been done
heretofore early in January, but with
the new city law, the Board is re-
quired by the state to hold the meet-
ing in May.

BELIEVED TO HAVE LOST LIFE.

New Berlin Boy in Paris Church
Shelled by Boche.

Norwich, May 6. — War has come
home to the people of New Berlin as
never before after knowing the thrill-
ing experiences of one of their sons,
John J. Summers, who has been
through considerable hardship and
has seen service in the trenches in
France. About Easter Sunday word
was received from him that he was
attending one of the largest churches
in Paris. It was this same day that
this church was bombed by one of
the large German guns. Nothing
was heard from him and it was feared
he was killed with the many
others at that time. His people and
friends are anxiously awaiting some
word.

Even in camp Private Summers
had many thrilling experiences. When
he was sent to France he was on the
transport Tuscania which was torped-
doed and he was then believed to be
dead, as he was not heard from for
a month, until one day his people re-
ceived a cablegram that he was still
alive and had been in a hospital in
Scotland for some time. After he re-
cuperated and went to the trenches
he was in the thickest of the fight and
was wounded by a Hun bullet and had
his thumb blown off. It was while he
was convalescing that word was re-
ceived from him that he was to at-
tend the service in Paris.

WAR SAVINGS STAMPS.

Now Bond Drive is Over Invest Your
Savings in War Stamps.

Its War Savings Stamps now!
Uncle Sam wants these baby bonds to
be generally bought. The govern-
ment wants the money and needs the
use of every cent the people can
spare. The men and women are pur-
chasing these stamps with a degree
of regularity and it is confidently ex-
pected Oneonta will do her share of
this work.

There are men who are following a
definite plan for the purchase of War
Savings Stamps and Thrift Stamps.
Some buy a Thrift Stamp every day,
others purchase a War Savings Stamp
once a week so that a systematic plan
is observed.

During the month of April the re-
sults in this city were very satisfac-
tory, due to a large degree to the
efforts of the postmen. The sales ag-
gregate \$4,530.55, which is an in-
crease of sales over the previous
month, and this in face of the heavy
drive for Liberty bonds.

Why, Indeed!

Why, indeed, should those who
spread the spirit of sedition and dis-
loyalty even though they are careful
to keep within the letter of the law,
have a monopoly of making addresses
in sections where real Americanism is
most needed?—[Schenectady Gazette.]

LOCAL MENTION.

—Mrs. F. H. Marx, who underwent a serious operation Saturday at the Fox Memorial hospital, is making a good recovery.

—Volunteer workers are wanted this afternoon and evening at the Red Cross surgical dressings rooms to work on absorbent pads.

—Motorists driving in from Delhi last evening report the highway via Meridale and the Swart Hollow road in fairly good condition and dirt roads generally in better condition than usual thus early in May.

—Defective insulation around the magnet wire in fire alarm box No. 67, River and Gilbert streets, yesterday afternoon caused a short circuit that sent in a false alarm to headquarters. The fault was soon rectified with new wire.

—Miss Blanche Strong, teacher of one of the seventh grade classes at the Academy street school, has been granted a leave of absence at her own request for the balance of the school year. Her place is being taken by Miss Marjorie V. D. Wilkins, a student at the Normal school.

—Health Officer Marx desires it understood that while the city wagons working in connection with the Clean-Up week will gather refuse and other evidences of cleaning up that no garbage can be handled by these workers and that all garbage must be handled in the manner prescribed by the health department regulations.

—Advanced masonry art is most successfully displayed in the Dauley Burial crypt, of which the first to be constructed in the city of Oneonta is now nearing completion in Riverside cemetery. The crypt, which is on the burial plot of Owen C. Becker esq., is nearly finished and all who are interested are invited to visit the cemetery and inspect the work.

TO TALK ON WAR CHEST.

District Delegate Groner Will Be in Oneonta Tomorrow Night.

At a public mass meeting to be held in the Municipal hall at 8 o'clock tomorrow night, to which all Oneontans are invited, District Delegate Groner of Syracuse, an expert in the war chest plan of providing moneys for worthy war purposes, will tell of his experiences. He will come to help in the campaign now being made here to get the citizens of the city to pledge a definite amount monthly to a community fund from which sums could be drawn to meet any calls from this or the other side for aid.

Mr. Groner, who is a former Y. M. C. A. secretary, will tell how the war chest has worked out in other communities where he has rendered his assistance in putting the idea into effect. He has spoken in this city before and will be remembered as an effective speaker.

FINAL FIGURES INCOMPLETE

Impossible for Banks of County to Give Final Figures of Liberty Bond Sales Until Later in the Week—Total Sales Daily Increasing.

Chairman L. P. Butts of the Liberty Loan committee of Onego county, who returned from a business trip to Baltimore, Maryland, yesterday morning, was unable last evening to give any figures on the sales of bonds in the county, and it is doubted if any satisfactory statement can be made until later in the week. Many of the banks have still subscriptions upon which no payments have been made and they are unable to determine whether the subscriptions are bona fide or not. Some have been unable to separate the subscriptions locally from those which should be credited to other towns, so that the final figures are not available for their home towns.

It is certain, however, that the sales will go beyond any figures given out previously as sales were made during the day yesterday at many places and belated subscriptions are arriving by mail so that the total figures will be even more gratifying when they can be given out.

Unadilla, with an allotment of \$75,000, which at one time was discouraged about securing that amount, now reports total sales of \$154,250, which is more than double the amount expected, which will assure it one star upon its honor flag.

Worcester with a total allotment of \$62,900, has closed the subscription with a total of \$82,000 to her credit, which is quite gratifying, considering the condition of her list at one time.

Schenenrus, which was asked to take \$40,100, has responded with a total of \$70,000 subscribed.

West Laurens, which was asked to raise only \$3,900, has come across with \$9,150, according to the report made by Charles Beney when in town yesterday. Whether any sales were made during his absence in the city for the day was not reported last evening.

In the city both banks still have some subscriptions upon which no payments have been made. This leaves the subscriptions in doubt, and they cannot be reported until the banks are ready to assure that they are sold.

MAKING A CITY CENSUS.

Active Work Preliminary to Canvass for War Chest.

Work making a complete census of the residents of the city above 16 years of age, irrespective of their incomes was commenced in earnest yesterday morning, and throughout the day workers were seen in all sections of the city. The interest manifested in the project is certainly very gratifying and if indications are indicative of the outcome, then the city is to make the enterprise a pronounced success. In fact the idea that it can have any other outcome has not entered the mind of any of the promoters. It is considered unbelievable that the city will do other than meet all obligations fully and will unite in the project of making the task of securing the needed funds as easy as possible.

It should, and will, it is believed, require no argument or persuasion to convince all residents that systematic contributions monthly of such amounts as can be made within the income each receives will assure a suitable fund and obviate a succession of campaigns for the various war relief projects.

TO SPRINKLE FIVE STREETS.

Board of Public Works Passes on Petition Last Evening.

Petitions for the sprinkling and flushing of Main, Chestnut, West, Broad and Market streets were received by the Board of Public Works last night and ordered carried into effect.

Upon petitions to prevent the blockading of South Main street by parked automobiles, the Board passed a resolution requesting the police department to see that the city ordinance in this respect is enforced, and the roadway kept clear.

Rifle Practice This Evening.

The members of company G are enjoying the rifle practice with the sub-target gun at the armory and some good scores are being obtained. Practice will soon be taken up on the out door range and all who have not practiced at the armory are expected to do so this evening.

Notice.

CHARGED WITH ABDUCTION

CLEVELAND KNAPP HELD ON SERIOUS CHARGE BY JUDGE SHOVE.

Takes Fourteen Year Old School Girl to Cooperstown and Marries Her, She Declaring That She Was 18 Years of Age and Resided at Cooperstown.

On Friday last Truant Officer Charles Thompson of the Plains district arrested George Bowen for failure to keep his 14 year old daughter, Hazel, in school, she having absented herself from school from April 3 to 30, with no explanation. When arraigned before Justice VanWoert, Bowen failed to give any good reason why he had failed to comply with the law and he was sentenced to the county jail for 30 days for the violation. The investigation disclosed that the daughter was not at home.

On Saturday Mr. Thompson reported to the city police department that the girl was reported to be in the city and living with Cleveland Knapp, claiming to have married him. Officer Brown located Knapp and the Bowen girl in a house on Emmons place and when he returned with a warrant for Knapp's arrest they had departed. The officer followed them up through Wilber park and above the pines, after which all traces of them were lost. Later in the day, thinking they would probably turn north, Officer Brown found them at about 4 o'clock on the highway between Colliers and Cooperstown Junction. They were brought to this city and Knapp was held for examination yesterday morning charged with abduction.

Yesterday morning when the case was called a further adjournment was asked and a week was given. Knapp is held in \$2,000 bail and will be taken to Cooperstown today to await further examination on Monday next.

The further examination into the case discloses that the couple went to Cooperstown on April 8, and were married, a license being secured there, the girl giving her age as 18 and her residence as Cooperstown. It is understood that they have been living together as man and wife since. The girl will not be 15 until August, and while they are neither of them possessed of much moral enlightenment, the case is one that deserves to be followed through, which doubtless will be done.

CLEAN-UP WEEK STARTS WELL.

Good Work Yesterday in First Ward Continues Today in Second.

Clean-Up week started off very well Monday morning despite short announcement made of its coming. The Campfire Girls and the Boy Scouts are working in harmony with the committee in asking the people in the various wards to co-operate in getting the refuse and rubbish on the sidewalks ready for the teams when they call.

Yesterday the first ward was inspected and found much rubbish and many unsightly places had been removed. There are still some other undesirable places that may be taken up later.

Today activities will be centered in the second ward. The residents have had their attention called to the fact through personal efforts of the Boy Scouts who made a thorough canvass of the second ward yesterday after school and there should be a hearty response in making the back yards smile after the renovation today.

This is national clean-up week and every city and village in the United States has been asked to make some effort in improving the living conditions and remove anything and everything that may in any way reflect upon the city's reputation as a sanitary place in which to live.

L. J. Bookhout, chairman of the Chamber of Commerce committee, will be glad to receive any information of lack of co-operation. The committee meets at 5 tonight in Chamber of Commerce rooms.

RETURN ENGAGEMENT.

Last Appearance Here Of "Birth of a Nation."

Never in the history of the theatre has there ever been so wide spread a demand for return engagements of a play as there is for David Wark Griffith's magnificent spectacle, "The Birth of a Nation," which will commence Thursday afternoon at the Theatre Oneonta with extra children matinee Friday at 3:45 o'clock.

During the past season in New York, Chicago, Boston, Philadelphia, Pittsburg, St. Louis and in all of the large cities of the country the past records for long runs have been eclipsed and new records established that are almost unbelievable. Over six million people have enjoyed its wonders. Never before have so many people flocked to see an entertainment twice every day the theatres have been filled wherever it has been presented. Where return engagements have been played the attendance has been larger than during the earlier engagements. It is of extremely rare occurrence that anyone is satisfied with one seeing of this wonderful production. It is safe to say that three million people have seen it at least two times. Prices are quoted in large ad on page two. Seat sale opens today.

Physicians
Praises Our
Prescription
Work

When a prescription is to be compounded to combat serious illness, nothing but the most scientific service should be considered. We have everything prescribed by physicians and our compounding is conducted with care and skill. Do not economize on drugs that are actually needed. Consult a physician in all cases of serious illness and bring your prescriptions to us to be compounded so that the medicines will act true.

Notwithstanding the superior character of our prescription service, our prices are no higher than are asked elsewhere.

JAMES A. JONES DEAD.

Succumbs to Apoplexy Following
Stroke Suffered April 18.

Following a stroke of apoplexy suf-
fered on the evening of April 18,
James A. Jones, a prominent D. & H.
engineer, died at the home of his son,
A. Guy Jones, 12 Maple street, Sun-
day night. Mr. Jones had been ailing
ever since he had undergone an opera-
tion in November, 1917, for kidney
trouble, but seemed to be improving.
He has never been quite well since
he secured his pension from the rail-
road five years ago, after having served
the company faithfully for 35
years.

The deceased was born at Brooklyn,
September 21, 1849. At the age of
ten years he came with his parents,
Mr. and Mrs. John C. Jones, to One-
onta, and except for the period be-
tween 1878 and 1891, when he lived
at Cherry Valley, while an engineer
on the Cherry Valley branch, has al-
ways resided in this city.

On June 2, 1874, he was married to
Maria T. Moore of Oneonta, whom he
survived by five years. The union
brought five children, two of which
died in infancy. Three boys survive,
C. Roy, of San Antonio, Texas, who
came north to be at his father's be-
side; A. Guy and W. Lee, both of
Oneonta. Two sisters, Mrs. William
Stanton of Oneonta and Mrs. Eliza-
beth Owen of Schenectady, and two
brothers, William Jones of Sumner-
ville, Mass., and G. W. Jones of Athol,
Mass., survive, besides two grandchil-
dren, Charles, aged 12 years, and
Jacquelyn, six months, children of A.
Guy Jones.

Besides being an efficient railroad
man—his business during his life-
time—Mr. Jones was an expert angler.
Since the days of his youth
when he worked on a farm near South
Hartwick, he made it a practice to be
on hand the very first day of the
opening of the trout season. This
year was no different, and on April 6
he was seen at his old hole in the
Otego creek, when he hooked nine
beautiful trout.

"He was one of the best dads,"
said the boys in talking about their
father last night.

The deceased was long a member
of the Free Baptist church. He also
belonged to the Brotherhood of Loco-
motive Engineers, and of P. H. C.,
Oneonta lodge, No. 248.

The funeral will be held from the
late residence tomorrow afternoon at
2 o'clock with the Rev. Charles S.
Pendleton of the Free Baptist church
officiating. Interment will be at Riv-
erside in the family plot.

DEATHS.

Mrs. George Coffyn.

New Lisbon, May 6. — Mrs. Jane
C. Eldred, wife of George Coffyn of
New Lisbon, passed away at the Peo-
ple's hospital in Syracuse Friday
evening. She had been in poor health
since last fall and about three weeks
ago went to Syracuse for treatment.
She was thought to be gaining and
was expected to come home within a
few days. Friday noon her husband
received a message saying she was
worse and to come at once, but she
passed away before he reached the
hospital. Her body reached here
Sunday afternoon.

The deceased was the oldest
daughter of William S. and Louisa
(Carr) Eldred and was born in the
town of Laurens, Feb. 17, 1851. She
was thrice married, her first husband,
Garrison Briggs, dying in October,
1890. Thirteen years later she mar-
ried Daniel Weatherly, who died Oct.
16, 1905. On March 18, 1907, she
was united in marriage to George
Coffyn, who survives her. She also
leaves an aged mother, one sister,
Mrs. Veeder Lasher of New Lisbon;
one niece, Mrs. George Mann of Ote-
go, and several other relatives. She
was a faithful, zealous worker of the
Zion Episcopal church at Morris and
a charter member of the New Lisbon
grange. Mrs. Coffyn was a kind
hearted and much respected woman
with a host of friends, who unite with
the family in their sorrow.

The funeral was held at her late
home this morning at 11 o'clock, Rev.
M. S. Ashton officiating. Interment
was made beside her first husband in
Hillington cemetery.

FUNERAL OF MRS. CARROLL.

Will Be Held at Son's Home Tomor-
row Afternoon—Her Death Sudden.

The funeral of the late Mrs. Cath-
erine Carroll, who died suddenly at
her home, 11 Ponda avenue, Sunday
night of heart disease, will be held
at the residence of her son, Arthur W.
Carroll, 7 Ponda avenue, tomorrow
afternoon at 2 o'clock. The Rev. Dr.
E. J. Farley, pastor of the First Bapt-
ist church, will officiate. Interment
will be made in the family plot at the
Pond cemetery.

Mrs. Carroll was born in the town
of Worcester and was 77 years of
age. Her entire life was spent in this
county, the greater part of it in One-
onta. Her death came as a shock
to her many friends and relatives,
since she had been in usual good
health, and had even attended
church on Sunday morning.

Mrs. Carroll is survived by two
children, Arthur W. Carroll of One-
onta, and Mrs. George Keyes of
Aurora, Ill., and by one sister, two
brothers, and four grandchil-
dren.

The deceased was a life long mem-
ber of the First Baptist church, a de-
vout Christian, and a kind and loving
mother, neighbor and friend.

Death of Mrs. Scofield.

The death of Mrs. Helen Scofield
occurred last night at the home of
her son, Adison, West Oneonta. Fur-
ther notice will be given in tomor-
row's Star.

TWO TAKEN INTO CUSTODY.

Anna Weiss and Lizzie McHale
Charged With Conducting Dis-
orderly Houses.

During the absence of Chief Blar-
d from the city, Officer Brown, who
secured some evidence relative to the
conduct of disorderly houses and re-
calling that there is no time like the
present, pursued some investigations
with a result that Anna Weiss of 9
Depeu street and Lizzie McHale of
19 Makley avenue were arrested
charged with violating section 1146
of the penal code, in that they had
been conducting disorderly houses.

They were arraigned before Judge
Holmes as acting judge and were
convicted. They were each sentenced
to pay a fine of \$25 and to be com-
mitted to the county jail for a period
of 150 days. The jail sentences were
suspended during their good behavior.
It is the intention, if they do not con-
duct themselves properly to enforce
the jail sentences.

Wanted — Two men to drive team.
